Additional Cache Management

Flush Catalog Images Cache	Pregenerated product images files
Flush JavaScript/CSS Cache	Themes JavaScript and CSS files combined to one file.
Flush Static Files Cache	Preprocessed view files and static files

- Copy the files under the Code folder to the the corresponding location in you magento 2 installation:
 - **Code/app** folder to **your_magento_installation/app**
- After moving the files and folders to corresponding location, open terminal (in Linux) or cmd prompt (Windows).
- Move to your magento installation directory using the **cd** command.
- Run the following commands from your magento installation directory:
 - **php bin/magento cache:flush**
 - **php bin/magento setup:upgrade**
 - **php bin/magento indexer:reindex**
- Run the below command to verify if Holiday Season Effects is successfully installed:
 - **php bin/magento module:status**
- On successful installation of Pre Packing Slips Module you will be able to see **Velanapps_PackingSlips** present in the list generated. If you are not able to find **Velanapps_ PackingSlips** in the generated list, kindly check if the files are moved properly.

2 Pre Packing Slips – Magento 2 Admin Panel Configuration

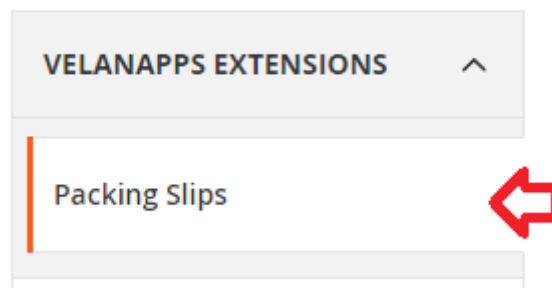

- After successful installation of the module, login to the Magento 2 admin panel and navigate to **Stores -> Configuration**:

- Enter the activation key that you have received in mail in the text box provided:

A screenshot of the 'VELANAPPS EXTENSIONS' activation page. The page has a header with the extension name and an 'Activation' tab. Below the header, there is a section titled 'Packing Slips Activation' with a red arrow pointing to it. To the right, there is a text input field labeled 'Key [global]' with a red arrow pointing to it. Below the input field, the text 'Enter Activation Code.' is displayed.

- Once the product is successfully activated, you will be able to access the **Packing Slips** menu item under **Velanapps**:

3.1 Pre Packing Slips Admin Configuration

The admin user can enable or disable Pre Packing Slips extension in the admin panel:

The screenshot shows the 'VELANAPPS EXTENSIONS' menu on the left with 'Packing Slips' selected. The main area is titled 'Settings' and contains a single configuration item: 'Enabled' with a dropdown menu set to 'Yes'. A red arrow points to the dropdown arrow.

You can also specify if the Pre Packing Slips should be sent as attachment via mail for Order confirmation email and Order Comments Update email from System -> Configuration -> Sales -> Sales Emails:

The screenshot shows the 'VELANAPPS EXTENSIONS' menu on the left with 'Sales Emails' selected. The main area is titled 'Order' and contains several configuration items: 'Enabled' (Yes), 'New Order Confirmation Email Sender' (Sales Representative), 'New Order Confirmation Email Template' (New Order (Default)), 'New Order Confirmation Template for Guest' (New Order for Guest (Default)), 'Send Order Email Copy To' (Comma-separated), 'Send Order Email Copy Method' (Bcc), and 'Attach Pre-Packing Slip as PDF' (No). Red arrows point to the 'Sales Emails' menu item and the 'Attach Pre-Packing Slip as PDF' dropdown.

Order Comments

The screenshot shows the 'Order Comments' configuration section with the following items: 'Enabled' (Yes), 'Order Comment Email Sender' (Sales Representative), 'Order Comment Email Template' (Order Update (Default)), 'Order Comment Email Template for Guest' (Order Update for Guest (Default)), 'Send Order Comment Email Copy To' (Comma-separated), 'Send Order Comments Email Copy Method' (Bcc), and 'Attach Pre-Packing Slip as PDF' (No). A red arrow points to the 'Attach Pre-Packing Slip as PDF' dropdown.
