

Use Case:

Many stores of a master login closer to the central kitchen can possibly have more items which can be fulfilled than stores which are far away where Factory to Store delivery is done. Express delivery cakes or higher weight cake, savouries etc can be different at store level.

Who?

Admin, Vendor logins

What?

Allow Managing the catalogue at Store level. It can be excluded style list of Products at store level. Enable disable Products at store level.

Doing so, will provide more control to master login to determine which cake should be listed / delisted from which store location.

Default Value?

Default is set to all catalogue is available at store level. User will have to set up exclusion rules.

Note:

Also allow Admins / Vendors to control what inventory is sellable when users visit via All-Pune, All Bangalore,

Feeds Export will also be impacted as only Products available for ALL-<CityName> to be listed in Feeds instead of every like today.

Why?

Bakeries tend to limit their inventory as not all products they have are sold from every store citing several reasons

Greater control on which products are available will give flexibility to upload more inventory.

more options to user, more opportunities of conversions

Functional Flow:

Enable/Disable product from back-end/admin at store level

Please follow below steps for enabling/disabling product at store level for particular seller.

Click on manage seller tab under marketplace management tab and search for seller

The screenshot shows the 'Marketplace Management' dashboard. On the left, a sidebar menu includes 'Dashboard', 'Sales', 'Products', 'Customers', 'Marketing', 'Content', and 'Reports'. Under 'MARKETPLACE MANAGEMENT', 'Manage Seller' is selected. The main area displays a summary of seller performance: Revenue (₹0.00), Tax (₹0.00), Shipping (₹0.00), and Quantity (0). Below this, a table lists products: Blackforest Cake-Blackforest-Eggless-0.5 with a Price of ₹229.00 and a Quantity of 255. At the bottom right, there are 'Bestsellers', 'Most Viewed Products', 'New Customers', and 'Customers' buttons. A 'Reload Data' button is located in the top right corner.

User can filter seller using any of the filters shown below like shop title or seller id.

The screenshot shows the 'Manage Sellers' page. The left sidebar is identical to the previous screenshot. The main area features a 'Filters' button and several input fields for filtering sellers: Seller ID (from/to), Seller Since (from/to), Seller Name, Shop Title (Shop Title: Noble Bake Food), Store Locality Area, Seller Email, Seller Status, Phone, ZIP, Is Live Ready, Country, Bakery Type, Is Conglomerate, Web Site, State/Province, City, and City. There are 'Cancel' and 'Apply Filters' buttons at the bottom right. An active filter 'Shop Title: Noble Bake Food' is listed at the top left.

Search seller and open seller information by clicking on seller name link

The screenshot shows the 'Customer View' section of the Magento Marketplace Management interface. The left sidebar has 'CUSTOMERS' selected. The top navigation bar includes 'Back', 'Delete Customer', 'Reset', 'Create Order', 'Reset Password', 'Force Sign-In', 'Save and Continue Edit', and a prominent orange 'Save Customer' button. A 'Reset Password' link is also visible above the save button. The main content area is titled 'Personal Information' and contains several data fields:

- Last Logged In: Aug 3, 2018, 6:47:20 PM (Online)
- Account Lock: Unlocked
- Confirmed email: Confirmation Not Required
- Account Created: Nov 8, 2017, 9:48:55 AM
- Account Created in: Default Store View
- Customer Group: General

A note below states: 'Default Billing Address' and 'The customer does not have default billing address.'

Go to manage store catalog tab

The screenshot shows the 'Customer View' section with a dropdown menu for selecting a store. The 'Select Store' dropdown is set to 'Noble Bake Food Wanowrie'. Below it are two columns: 'Active (7)' containing items like Blueberry, Choco Truffle, Black Forest, Kiwi, Butterscotch, Pineapple, and Choco Walnut; and 'Inactive (2)' containing White Forest and Strawberry. Navigation buttons for 'Save' and 'Reset' are visible at the bottom right.

User will see dropdown for selection of store at manage store catalogue tab. Select store from dropdown whom inventory you want to manage.

Single store/Standalone bakery – only one 1 store will be shown

Master/ Multiple store bakery – all enabled stores will be shown under dropdown for selection.

Product will be shown in two columns for selected store of seller. 1st row contains all enable product and 2nd row contains all disable product for selected store of that seller.

Product visibility at manage store catalogue tab:

Only enabled and approved product will be shown at manage catalog store tab for enabling/disabling inventory at store level. So, if we disapproved/disable any product from seller level then product will not be visible at manage catalog store tab.

For enabling or disabling product from store level user have to drag and drop that particular product into required rows (i.e. active and inactive)

Visibility of store at manage store catalog tab:

Only store with enabled status will be shown at manage store catalog and we can only make changes in inventory for the enabled stores of that seller.

E.g. WS bakers have total 47 stores but let's assume only 40 stores are enabled. So, in manage store catalog tab only 40 locations/store will be shown in dropdown for WS bakers.
